Date 22 / 09 / 2026

PREPARED FOR
DR. FARHAN AHMAD
Client

QUOTATION FOR
Website Development
Doctor / clinic website

ENGAGEMENT OVERVIEW

This quotation covers Website Development for Dr. Farhan Ahmad, designed to establish a professional online presence. The full scope of work, pricing and terms are detailed below.

SCOPE OF SERVICES & PRICING

DEV

Website Development

01

- Design and development of the website
- Delivery timeline: 10–15 Days

Fee — Rs. 6,000/-

HOST

Domain & Hosting Charges

02

- Domain registration
- Website hosting

Fee — Rs. 3,000/-

SCOPE OF WORK

Development of a modern, professional and conversion-focused website for Dr. Farhan Ahmad and the Orthopaedics Department of H.M. Surgical Hospital, designed to establish professional authority, present treatments and conditions clearly, showcase patient outcomes, and generate appointment enquiries through a mobile-first experience.

1. Website Architecture

The site will separate services, medical conditions, doctor information and proof of expertise into a clear structure, making it easier for patients and search engines to navigate:

- Home
- About Dr. Farhan Ahmad
- Orthopaedic Services
  - Fracture & Trauma Treatment, Knee Replacement, Knee Arthroscopy, ACL Surgery, Meniscus Treatment, Hip Replacement, Arthritis Treatment, Shoulder Treatment
- Conditions
  - Knee Pain, Osteoarthritis, ACL Injury, Meniscus Tear, Fractures, Shoulder Pain
- Case Studies
- Patient Reviews
- Contact / Appointment

2. Homepage Development

The homepage will work as the primary patient-conversion landing page.

Hero Section

- Premium medical hero featuring Dr. Farhan Ahmad – Senior Orthopaedic Surgeon | DNB Ortho (Gold Medalist)
- Suggested messaging: “Expert Orthopaedic Care for Better Mobility & Better Living”
- Primary CTA: Book an Appointment through enquiry form
- Secondary CTA: Call Now / WhatsApp
- Optional short background or doctor introduction video to establish trust

Key Highlights

- DNB Ortho – Gold Medalist
- Senior Orthopaedic Surgeon
- Joint Replacement
- Arthroscopy & Sports Injury Care
- Fracture & Trauma Treatment
- H.M. Surgical Hospital, Azamgarh

3. Video Integration

- Doctor Introduction Video – Dr. Farhan Ahmad introducing his expertise and approach
- Hospital / Department Video
- Patient Testimonial Videos
- Treatment Education Videos

Videos can be embedded from YouTube/Vimeo or hosted per the final technical requirements, with appropriate thumbnails and lazy loading to maintain performance.

4. About Dr. Farhan Ahmad

A dedicated doctor profile page establishing authority and credibility, covering:

- Professional introduction & qualifications (DNB Orthopaedics, Gold Medal achievement)
- Areas of expertise & surgical experience
- Treatment philosophy & hospital association
- Professional achievements & selected case experience

5. Case Studies

A dedicated section providing real-world treatment evidence, following the format: Patient Problem → Diagnosis → Treatment → Procedure → Recovery.

- Complex fracture cases, knee replacement cases, ACL reconstruction, arthroscopy, meniscus treatment, and other orthopaedic procedures

Where appropriate and legally/ethically permissible, before/after diagnostic images, X-rays and treatment photographs can be incorporated.

6. Patient Reviews

- Google reviews
- Written patient testimonials
- Video testimonials and patient experience stories

The homepage will feature selected reviews, with the dedicated page containing the full collection as a trust-building element before the appointment CTA.

7. H.M. Surgical Hospital

A separate section/page introducing the hospital, covering:

- Hospital overview & infrastructure
- Orthopaedic department, operation theatre, emergency & trauma care, ICU
- Diagnostics & imaging, physiotherapy/rehabilitation
- Patient facilities & location

8. Appointment & Lead Generation

The website will be designed around patient conversion rather than simply displaying information.

CTA Placement

- Hero section, after doctor introduction, after major services, after case studies, after testimonials, bottom sticky mobile CTA, and contact section

Appointment Form Fields

- Name, Mobile Number, Preferred Consultation Date, Treatment/Concern, Message
- Primary CTA: Book an Orthopaedic Consultation
- Direct-action buttons: Call Now | WhatsApp | Get Directions

9. Blog / Orthopaedic Health Tips

A dedicated blog section to support long-term organic SEO, with topics such as:

- When Should You Consider Knee Replacement?
- Common Causes of Knee Pain / Knee Pain While Walking
- ACL Injury Symptoms & Meniscus Tear Symptoms
- Knee Arthroscopy: What Patients Should Know
- Osteoarthritis Treatment Options
- When Does a Fracture Require Surgery?
- Hip Replacement Recovery & Shoulder Pain Causes

10. UI/UX Design

The website will follow a premium healthcare design system that feels specialist-focused rather than a generic hospital template:

- Clean medical interface with professional typography
- High-quality doctor/hospital photography and strong visual hierarchy
- Clear CTAs, mobile-first responsive design, easy navigation
- Fast-loading, minimal-clutter, trust-focused presentation

11. Mobile Optimization

Since a significant portion of healthcare searches happen on smartphones, the site will be fully responsive, including a sticky bottom CTA (Call | WhatsApp | Appointment).

- Touch-friendly buttons, compressed images, optimized videos
- Fast-loading sections, simplified navigation, mobile appointment form

12. SEO-Friendly Development

On-Page SEO

- SEO-friendly URL structure, meta titles & descriptions, proper H1–H6 hierarchy
- Image ALT text, internal linking, FAQ sections, schema markup where appropriate
- Service-based and condition-based landing pages

Local SEO

- Focus built around searches such as: Orthopaedic Surgeon in Azamgarh, Orthopedic Doctor in Azamgarh, Knee Replacement Surgeon in Azamgarh, Knee Pain Treatment in Azamgarh, ACL Surgery in Azamgarh, Joint Replacement in Azamgarh, Orthopaedic Hospital in Azamgarh

13. Technical Development Scope

- Responsive website development & CMS integration
- Contact/appointment forms, WhatsApp integration, click-to-call functionality
- Google Maps integration, video integration, social media integration
- SSL-ready implementation & basic website security
- Performance optimization & image optimization
- Browser compatibility across mobile, tablet and desktop

PRICING SUMMARY
